

Dear valued distributors,

We deeply appreciate your ongoing collaboration with Establishment Labs in promoting our Motiva Implants®. We write to inform you of a strategic decision to discontinue the production and future availability of our 1,050cc and 1,060cc implants.

We understand the impact this may have and apologize for any inconvenience. This decision is part of our commitment to refining our product portfolio and ensuring the sustained excellence of our offerings. We appreciate your understanding and value your continued partnership. Please contact our local sales representative in case of any doubt.

Best regards

Salvador Dada  
Global Head for Special Projects
